

ASSIGNMENT 3

Question :

Build a Python Code, for blinking LED and Traffic Light Using Raspberry Pi

Code :

```
from gpiozero import LED
from time import sleep

while True:
    red = LED(20)
    red.on()
    sleep(10)
    red.off()
    green = LED(20)
    green.on()
    sleep(10)
    green.off()
    amber = LED(10)
    amber.on()
    sleep(5)
    amber.off()
```
