

## ASSIGNMENT 3

### Question :

Build a Python Code, for blinking LED and Traffic Light Using Raspberry Pi

### Code :

```
from gpiozero import LED
from time import sleep
```

```
red = LED(20)
amber = LED(10)
green = LED(20)
```

```
while True:
```

```
    red.on()
    sleep(10)
    red.off()
```

```
    amber.on()
    sleep(5)
    amber.off()
```

```
    green.on()
    sleep(10)
    green.off()
```
